

WARRANTY REPLACEMENT

The customer can replace the loan guarantee with another. However, they must submit it to the analysis of the financial institution to which the asset is sold or as collateral for the loan.

Amendment Instrument: Once the loan has been approved, it is necessary to sign the Contract Amendment Instrument and submit supporting documents.

Payment of the Amendment Fee: The payment of the Amendment Fee will be necessary to conclude the operation. You can check the amount in the financial institution's tariff table, available on its website or displayed in one of its bank branches.

With your installments up to date, it is possible to replace a guarantee.
